► FROM DIRECTOR'S DESK

Over the years, management education has evolved manifold and now it holds a unique position of pride in India. So is the case with MIIM. From inception, Marian International Institute of Management is known for providing quality management education and an environment conducive to new and path breaking development in frontier areas of management.

MIIM has made tremendous progress in many areas with top-notch faculty members and staff, infrastructural facilities like gymnasium, outdoor stadium, volleyball court, better placements, and admissions. The college has achieved another milestone when it held hands with SAP education for the students and staff.

We whipped up a new and tailored menu and conducted number of certification programs for first years and second years including supply chain and logistics, advanced Excel training, export and import management, etc., and trained our students to write competitive exams. We focused more on close mentoring than on the usual pedagogy of teaching. As a result of this initiative, we completed our admission by 31st of April 2015 and we started our bridge course on 18th May 2015 quite ahead of other colleges.

We train our students on formal communication, confidence building, team approach, industry analysis and get them updated on the trends in the industry during the induction itself and it continues all through the semesters. We also equip them with other languages as well as other trainings to increase their employability skills in various sectors such as banking, FMCG, hospitality and so on.

I express my sincere gratitude to management, faculty members, parents and students for the kind hearted support for this movement. The details of the programs can be read in following pages.

Thanking whole heartedly for the support of the last edition and I humbly dedicate this GLIMPSE to the public
